## MEDICAL ETHICAL COMMITTEE APPROVAL

This is to declare that the ethical committee of the medical research has reviewed the proposal titled:

Changes in salivary pH under the effect of stainless steel verses elastomeric ligatures in selected group of Orthodontic patients: A Randomized Clinical Trial

Presented by: Hind Abulkareem Abdullah Nasher Al-Hyife

Faculty: Dentistry, UST

And found that it has fulfilled the guarantees and safeguards for the medical research ethics and that the proposal is in compliance with the policy of the committee.

Chair, Ethical Committee

Prof. Husni A. Al-Goshae
